Nursing Care of the Critically Ill Child-Mary Fran Hazinski 1992
This year at Suburban High School is just as troubling as the last. A curly-haired girl ghost is disrupting lives with dreaded “kiss notes,” and students are inexplicably sinking into depression. Bruno—the new kid on the block—finds himself at the center of the mystery when he discovers his natural map-reading abilities are actually supernatural. When the reluctant hero isn’t engaged in cosmic battles against evil, Bruno is swooning over the mesmerizing Celia (from The Suburban Strange) and navigating the goth sensibilities and musical obsessions of the Rosary, her über-chic clique. A hypnotic coming-of-age novel that chills and thrills.

The Children's Unit in Nottingham has a high profile nationally and internationally and has striven to adapt, create and develop innovative practice to meet the needs of sick children and their families. Childrens Nursing in Practice: The Nottingham Model outlines the practice

application of the model with numerous case studies. It challenges accepted practice and provides a theoretical and conceptual framework to guide and enhance the delivery of care within children's units. In Nottingham, parents, families and nurses work together to create a "homelike" environment that enables children and families to maintain some control over their lives by facilitating the development of additional caring skills and knowledge. This is achieved by a process of staff development and the creation of a supportive environment. The model is about caring not only for patients and relatives but also staff. With increasing interest in nursing theories and models and their application to practice, this book is an essential source of information for all practitioners working with children.
